Shoe size table

| Foot length in cm | D (EU) shoe size | UK shoe size |
|-------------------|------------------|--------------|
| Up to 23,8 | 37 | 4½ |
| Up to 24,3 | 38 | 5 |
| Up to 25,1 | 39 | 6 |
| Up to 25,6 | 40 | 6½ |
| Up to 26,5 | 41 | 7½ |

① Stand barefoot on a piece of paper of sufficient size.

Use a pen to draw two lines to mark where the big toe and heel end.

② You can determine your shoe size with the table on the left using the distance between the lines in centimetres.

Please consider the following

If your measurement results in a foot length of 25.3 cm: According to the table, a foot length of 25.1 cm corresponds to UK shoe size 6, while a foot length of 25.6 cm corresponds to shoe size 6½. Because 25.3 cm is closer to 25.1 cm than 25.6 cm, order shoe size 6 if this applies to you.
